

Portugal Cork Flooring

Portugal Cork Co Ltd, a division of Protective Paints Ltd, has been importing cork tiles and flooring for over 20 years.

As well as the traditional cork tiles, Portugal Cork Co Ltd also supplies laminated decorative cork and coloured cork.

Our range includes:-

Traditional Cork

A range of heavy density 6mm tiles both natural and pre-finished.

Decorative Cork

Six designs of laminated 5mm cork Tiles offering warm styles for that special installation.

So many benefits –

- 100% natural
- 100% waterproof
- Noise reduction
- Natural insulator
- Allergy resistant
- Ideal for every room
- Many colours and patterns available
- So easy to clean and maintain

Coloured Cork

We are able to supply 24 colours in our standard range. All paints, polyurethanes and adhesives are manufactured by **Protective Paints Ltd**, offering a guaranteed consistency from ONE manufacturer for the total installation. An installation service is available on request.

Samples of Portugal Cork are available from your retailer or Portugal Cork Flooring.

Treat it right, it will last forever

Portugal Cork Flooring Limited has absolute faith in their product – cork flooring.

Choose cork for your home and you'll experience only advantages, because there are absolutely no disadvantages.

Cork flooring is a natural, waterproof product that will last forever if looked after. It's quieter than hard flooring so you won't experience any echoes.

Cork is used between floors in apartment buildings for its sound insulating properties, and that this same benefit applies to individual homes.

Cork is also a natural insulator, keeping your home ultra warm in winter. It also has health benefits. It's incredibly easy to clean and doesn't trap dust, or other allergy creating properties.

Even though cork is waterproof, it is sealed with polyurethane to ensure ease of cleaning and to prevent water from seeping around the edges of the tiles. Cork is ideal for flooring in every room throughout the house, and is especially suited to 'wet rooms' such as bathrooms, laundries and toilets.

As for the look of your tiles, you're only limited by your imagination. Any colour is possible, and different effects such as 'terracotta look' tiles, stonewashes, in-lays and key squares create an individual look, while still retaining all the original benefits

While a cork floor can last forever, the polyurethane seal will last anywhere between 5 and 10 years, depending on how it's maintained as proper care will ensure your floor's longevity.

Often no long term maintenance is required but, if it is, just a quick sand and a re-coat is all that's necessary.
